

Room 9 News

Mrs. Marshall & Mrs. Bruner

February 24, 2020

Math

We finished our unit on measurement last week and we will be preparing for the test on Wednesday. Students have made a study sheet in class that they can use during the test. A good way to study at home is by reviewing and practicing problems on the Practice Test and by reviewing the Math Sprial.

Language Arts

This week we will focus on two informative writing passages. For each one we will read a piece and then respond to it.

Social Studies

Missions - Students should now be done answering the questions on the blue sheets in their packets and should be on to writing the report. We have talked about setting up Google Docs for each part of the report and what each part should look like.

**We will have some time in class this week and next to write, but students will likely need to work on these at home as well. You can help by proofreading and editing for your child.*

**Look at the scoresheet for parts I will be looking for in the report.*

**Reports can be printed at home or at school.*

****Reports are due on March 6.***

Science

This week we will start a new Mystery Science unit called Waves of Sound. "This unit helps students develop the idea that sound is an actual thing, a wave of vibrations traveling through the air. Equipped with this understanding, students can begin to make sense of how sound and music work."

Other Stuff

*Thursday, Awards Assembly @ 2pm

*Mission Reports are due March 6.

*Upcoming Field Trips:

**March 4, Fire Safety Day in Ventura, 8:30-11:30am (Note Date Change)*

**March 26, Lake Casitas Floating Lab, 8:30-1:30pm*

****Thank you to all of the parents and grandparents who have chaperoned our field trips!**
