Room 9 News

Mrs. Marshall & Mrs. Bruner

March 2, 2020

Math

On Monday we will start Unit 6, Fraction Concepts. This week we will learn about numerators and denominators and we will begin some very basic adding and subtracting of fractions.
**If you need to see our math Activity Book (that's our consumable textbook), your child can log in to Think Central using "v' in front of their 501 number and their regular password. They will be able to look at the Activity Book and the Homework and Remebering book.

Language Arts

Unit 7 is called Developing a Nation and we will look at the essential question, How do communities evolve? This week we will read a few historical information text pieces. Through these texts we will build timelines.

Social Studies

Missions - **Completed reports are due FRIDAY.**

We will have some time in the computer lab on Wednesday to print the reports, but students will need you to help them proodread before we can print.
Look at the scoresheet for parts I will be looking for in the report.
Reports can be printed at home or at school.
Oral presentations are next week on Wednesday and Thursday. Students will sign up this week for a presentation day. There is a helpful sheet in the Mission packet to guide their oral presentations.

Science

Our Fire Safety Day is all about fire science and how to keep your family safe. We will be writing a 5 paragraph essay about all the things we learned at Fire Safety Day.

Other Stuff

*Mission Reports are due FRIDAY.
*Mission Oral Presentations are March 11 & 12.
*12:55pm dismissal days for Parent Conferences are March 11-17.
