September 16, 2019

## Math

This week we will finish up all the lessons in unit one on addition and subtraction of bigger numbers. Next week, Monday will be a review day and Tuesday will be the unit test. On Monday night students will bring home their class math books and use the end of the unit review to study. It is a “mirror” test, meaning that all the test questions will look very much the same as the review, but have different numbers.

## Language Arts

In ELA this week we will read a realistic fiction selection that is an excerpt from the book Holes. We will continue to work each week on finding the Main Idea and Key Details as we read.

## Science

This week we will finish out lesson called, Could a volcano pop up in your backyard? And we will start the next lesson learning about different types of volcanoes and lava and why some explode.

## Social Studies

This week we will start our study of California! The first unit centers around the geography of California and how it makes us unique and different.

## PE

Our class will start TENNIS LESSONS on October 8 and we need a few parents to come play with us! We will meet on the playground from 12:15-12:45 on Tuesdays and Thursdays from October 8-November 14. ***Can you come play tennis with us? Let me know!***

## Other Stuff

\*Our first SKATE NIGHT is Monday! Please support the school by coming to skate. Students who attend will need to sign in to receive the Homework pass. *They may choose to skip tonight's homework or save the homework pass for another night.*
