

# Room 9 News

Mrs. Marshall & Mrs. Bruner  
September 9, 2019

## Math

We continue to work on rounding number which you may have noticed on the Quick Quiz was a challenge for students. We will also be moving on to subtraction with regrouping this week. And we will be talking about the relationship between addition and subtraction.

## Language Arts

In week 2 of Government in Action we will read an informational Social Studies article about the State Government and it's citizens. One thing we will work on all year when we read is being able to find the Main Idea and Key Details as we read.

## Science

Our first Mystery Science Unit is called The Birth of Rocks. In our first lesson..."The Unit Starter introduces the unit anchoring phenomenon, the Ashfall Fossil Beds. Students generate observations and questions about the phenomenon and create an initial explanation to explain what killed the prehistoric animals, how their bones ended up underground, and what changes happened to the land that uncovered their fossils."

## PE

We will usually have a PE lesson on Tuesdays and Thursdays this year, in addition to a quick run before each morning recess. Students need to make sure they have on good running shoes everyday. Tennis is coming back in October!

## Other Stuff

\*Our first SKATE NIGHT is Monday, Sept. 16! Please support the school by coming to skate.
